Hello!

I'm Jagoda (in translation blueberry) and I live in western Poland, only hundred kilometres from German border. Therefore it wouldn't be difficult to

meet again. ;-)

In two weeks time I am starting my last year of high school. When I would

have it finished I would like to study in Germany or GB something connected with psychology or languages (English, German, French).

Only a few words about myself. What I am really keen on are tennis, volleyball, smell of fresh mowed grass, strawberry butter milk, drawing turtles and of course getting to know new people.

As far as this exchange is concerned I have to admit that this was one of the best holidays I ever had. What is really worth mentioning during my stay

here the stereotype of "cold German people" have been definitely broken down. I met here a lot of really sympathetic, nice and open people with whom I had great time. Thank you for all that. I am really looking forward to

see you again!!!

Jonathan

Hi, I`m Jonny (Jonathan Stroh)

I`m living in the middle of Berlin. Before a month I finished school and got my Abitur. For the next year I will work as a social worker, instead of going to army. My social year is the reason why I participated in our international exchange.

On the 10th of September I`ll become 20years old. I really love music and sports and this is the reason why I want to study teacher for those two subjects after my social year. My hobbies are playing the trumpet, playing Basketball with friends and of course also just meeting friends and of course also just meeting friends or nice people to have fun.

I`m living together with my parents and my small sister and brother in the district Prenzlauer Berg, really nice place to live.

For me our exchange was a good chance to get to know the other participating nations better and to forget stupid prejudices. It is great to meet open-minded people around your age, to discuss, to cook, to learn, to get to know each other better and also just having fun together, experiencing and enjoying life!

I hope that we will see us again. (It`s said: "You always meet twice in life").

When you are again in Berlin, I would be happy, if you liked to contact me. But you can also write/call/contact me without any reason!

See you soon!

Johanna

Hi Guys, whats up??

I´m Johanna from Berlin, the capital of germany. I really enjoy the exchange because I´m learning al lot from all the cultures and habits from the different countries which participate here.

I love to listen to music, playinf the cello and reading books. My favourite topics to talk about are politics and telling jokes! ;-)

I don`t like watches because that reminds me that I´m always late...

Anyway, I hope you could enjoy the stay here in Berlin more or less.

Have a nice time of your life, maybe we will see us all again!

Karoline

Hello again!

My name is Karoline, I am born on 28th February 1987 and I come from Germany, Berlin. I live in my mums house together with my two brothers Maximilian(21) and Valentin(17).

This year I graduated (Abitur). Then I would like to go to Italy to learn the language and to absolve a practical year on a farm, this year in autumn.

Later I want to study ecology or better sea-and coast management that is a subject what has a lot to do with protection of the nature. I like to study this because it is a lot of practical work outside, together with scientists and it is very exciting...

So, I also used to travel by cycle or with tent, e.g. in countries like Scotland, Poland and Slovenia. This year I will "climbing" in the mountains of Rumania...

As you saw me often playing volleyball outside with some of you, I am loving many kind of sports. I am also interested in psychology and I like reading, watchig movies, culture...

Last but not least let me say that I really enjoyed this project because I learned so much about the others peoples culture and I got to know and I got to know and met people. I hope you liked it in Berlin and you collected many experiences for your life!

So, I wish you all the best and take care! I would be glad hearing from you!

In friendship your Karoline

Peace!!!

This exchange with you - I really enjoyed and we had a lot of fun! In german school you learn nothing about Eastern Europe, perhaps in connection with the II. Worldwar. It was also very interesting to learn from you.
